Retailer

- Ang LoadCentral ay **highly recommended** para sa mga internet shop owners, online store owners, at para sa ibang negosyante na may internet access. Mas mainam gamitin ang webtool sa paglo-load.
- Use at your own risk kung balak mong gamitin ang LoadCentral para sa negosyo gamit ang iyong cellphone lamang. Ito ay sa kadahilanang may mga pagkakataon na minsan ay nakaka-experience ng delay ang pagse-send sa access numbers.
- Ang Retailer ay ang taga-benta ng load products na ino-offer sa LoadCentral gaya ng load para sa lahat ng cellphone networks, online games, at iba pa.

LoadCentral Access Numbers

Ang **Access Numbers** ay ginagamit sa mga transaction gamit ang cellphone. Dito mo ipapadala ang lahat ng transaction requests gamit ang iyong registered SIM. Kailangan mo ng SMS o FL password sa bawat transaction na gagawin ninyo gamit ang cellphone.

Libre ang pagsend sa access number basta naka register ang SIM mo sa unlimited texting service ng iyong network. Kung hindi ka naka-unli, may charge sa bawat send ng transaction request sa access number at ito ay gaya ng charge sa pagse-send ng text sa ibang cellphone number.

Kung ano ang network ng registered SIM mo, dun sa access number na may katulad na network gaya ng SIM mo mas maganda isend ang mga transaction requests, pero maaari rin naman magsend sa ibang access numbers.

- Faster and more efficient since it by-passes our SMS access numbers.
- For the e-PIN that was just sold, the details are displayed on the PC monitor. The retailer can just write it in a piece of paper in the event that there are delays in SMS.
- Even if all the carriers' SMS systems are down, The retailer can still dispense e-PINs by selling to his own account.
- A retailer can do advance selling to himself of fast moving products.. He can either write it in pieces of paper or print the e-PINs. He can sell a maximum of 10 e-PINs of the same product denom per transaction.
- A static IP address offers the best security for the retailer since transaction using the web tool can only be done in a certain defined location. The DSL ISP normally provides this.

Ano ang EPIN?

Ang **EPIN** ay electronic PIN. Ito ay naglalaman ng Card Code, PIN, o Serial Number. Iba ito mula sa ELoad.

Kung ang Scratch Card ay may card na kinakaskas para makita ang code at PIN, sa EPIN naman ay **thru text message** makukuha ng buyer ang card code at PIN. Pwede rin itong isulat ng Retailer sa isang papel at ibigay sa buyer kung sa webtool nagbenta ng EPIN dahil makikita ito sa webtool.

Para Saan ang “Option”

Ang “**Option**” sa webtool ay ginagamit lamang sa **Globe or TM Load** mula 15 hanggang 150.

Halimbawa, may buyer na bumibili ng 67 Globe Load:

1. Select Eload – Globe AMAX Other (P15 – P150)
2. Enter Buyer's Number
3. In the Option box, enter 67
4. Click Sell Product

Para Saan ang “Quantity”

Ang “Quantity” ay ginagamit para sa **EPIN** transaction lamang.

Halimbawa, may buyer na bumibili ng 40 na Special Force DFI D-Coin.

1. Select Game Products – Special Force 20 DFI Phil Server (20 D-Coins)
2. Enter Buyer's Number
3. In the Quantity box, enter 2
4. Click Sell Product

The Buyer will receive two Special Force 20 D-Coin EPINS.

Paano Kung Wala Yung Exact Amount ng Eload?

Kung magkamuka ang amount na dapat i-load, halimbawa:

Bumibili si Buyer ng 40 Smart ELoad

Ang dapat gawin ay dalawang Smart 20 ang i-load kay buyer. Sa unang pag load, dapat ay **0** ang simula ng number ni buyer (example 09081134669). Sa pangalawang pag-load ng magkamukang product, dapat ay palitan ng **63** ang 0 para ito ay pumasok (example 639081134669).

Kung magkaibang load amount ang dapat i-load, halimbawa:

Bumibili si Buyer ng 45 Sun Load.

Ang pwede mong gawin ay i-load siya ng Sun 20 at Sun 25. Maari rin naman ibang denomination basta saktong 45 ang total pag pinagsama-sama.

Naka-Lock ang Webtool ko?

Nagla-Lock ang webtool kapag:

Tingnan ang Product Discount Structure. Maaring magrequest ng latest copy sa Customer Service, i-CHAT lamang sila sa new.acct.lc@gmail.com

Halimbawa ay ang Sun Regular 150. Ang Discount ay 8.00%.

Para macompute ito, dapat gawing decimal ang “%” at i-multiply sa denomination. Para ma-convert ang “%” to decimal, dapat ay ilipat ang “.” dalawang beses papunta sa kaliwa. Tingnan ang example para sa 8.00% :

$$8.00\% = \underline{08.00}$$

Kaya ito ay magiging “.08”

$$\text{I-multiply ang } 150 \times .08 = \mathbf{12}$$

Ibig sabihin ay P12 ang kita mula sa 8.00% na discount mula sa Sun Regular 150

Account Security Tips

1. Palitan ang passwords kaagad matapos ang registration. Palitan din ito agad kung kinakailangan.

2. Para mas maiwasan na may ibang maka-access ng webtool mo, ugaliin ang pagla-LOCK ng webtool.

3. Maging maingat sa lahat ng dina-download mo sa internet. Mas mainam kung magiging mapaghinala sa lahat ng dina-download at i-scan agad ito ng antivirus/anti-malware scanner.

4. Mag-install ng internet security application (antivirus, anti-spyware, anti-malware web protection) at i-update ito palagi.

5. Huwag ipaalam sa iba ang iyong passwords.

6. Huwag maglogin ng iyong LoadCentral account sa ibang website. Ang lehitimong webtool ay www.loadcentral.net lamang.

7. Huwag maniwala sa mga offers na nagsasabi na mas magkakaroon ka ng free load wallet pag nag login ka sa webtool nila, o nagsasabi na mas mataas ang discounts at mas malaki ang kikitain mo sa kanila. TANDAAN: LoadCentral Admins lamang ang maaring magbago ng discount rates at hindi ito pwede mabago nino man. I-report agad ang kahina-hinalang offers sa LoadCentral Customer Service.

8. Gamitin ang on-screen keyboard para i-type ang iyong password sa webtool page para maiwasan ang anumang keyloggers (password recorder) na maaaring naka-install ng hindi mo alam sa iyong computer.

9. For Advanced Internet users, kung alam mo na may Static IP ka, maaari mo itong sabihin sa iyong Dealer para mai-lock ang iyong webtool sa iyong internet connection. Sa ganitong paraan, hindi ito maaaring ma-access ng ibang tao mula sa ibang computer na may ibang internet connection. Maaaring tanungin ang LoadCentral customer service upang magpatulong mag-configure nito.

Babala:

- **Huwag magpalinlang** sa mga loading companies na nag-offer ng mas mataas na kita. Maaaring walang delay ang loading nila thru cellphone sa ngayon dahil baguhan pa lamang at kaunti pa lang ang bilang ng loaders nila, paano pag dumami na ang loaders nila? Kadalasan pa sa mga ito ay mga **"Fly-by-Night"**. Mag-ingat!
- Ang LoadCentral ay HINDI NETWORKING company, subalit maraming networking companies ang gumagamit ng LoadCentral platform para sa kanilang loading system.
- Mag-ingat sa mga **FAKE** LoadCentral Advertisements.
